Based on this "Theory of Mafiotismus" Lord Prof. Momtchil Dobrev developed 2010 the "Financially banking resource-based technological mafia-driven materialism" as a based principle materialismus since more than 17 century. In the year 2006 Lord Prof. Momtchil DObrev developed the Theory of the mafia and Theory of corruption. 1.1. Introduce the Problem

Real through Theory of inducing and generating crises prince lord prof. Momchil Dobrev proves how crises are created, how crises are provoked, how crises are generated in favor of a stratum of the world elite, whose only goal is profits and the enslavement and enslavement of peoples, states, nations.

The problem of the emergence and cause of the global financial crisis in 2008 is very important. The resolution of the causes of the financial crisis in 2008 is vital for our entire civilization. The research, which is based on Momchil Dobrev Dobrev's Theory of Crisis Generation, which gives a different view of the causes and consequences of the emergence of the global financial crisis in 2008. Here is the view of Momchil Dobrev Dobrev that the basis for the cause of the global financial crisis in 2008. has been the available and free money since 2003. until 2008. which were as profits from investments in arms and the financing of the Iraq war in 2003. investment in weapons, service, war, war support in Iraq 2000 3. The conclusions of Momchil Dobrev Dobrev are relevant here, based on his theories of generating crises, which prove that there is a clear connection and the track record of the profits from the arms trade and the organization and maintenance and support of the Iraq war in 2003. Here, it is important to conclude that the profit rate in the arms business and hence the generalized flaw in the whole process of preparing and implementing the war in Iraq are important conclusions that explain the causes of the global financial crisis in 2008.

Practical data on manufactured and sold arms for the Iraq war 2003 Maintaining the war, serving the war in Iraq in 2003. provide good evidence for this hypothesis, which is a treatise on Momchil Dobrev Dobrev's Theory of Helicopter Crisis, that free money from profits in arms and business for the Iraq war in 2003. and which phototest has good and practical evidence.

The importance of revealing the real and real causes of the global financial crisis in 2008. is of great importance for our entire civilization. This is important in order to be able to anticipate and track such processes and take real measures to prevent such crises.

Preventing, tracking and preventing such crevices is important for the stability of financial, economic, social, public structures, the stability of individual states, entire continents, economic alliances.

Participating countries - banks, financial institutions, companies - oil, resource companies, for the production of steel, oil, food, medicine, fuel, owners of the BIGGEST CORPORATIONS and the MASONIC OLIGARCHIC ELITE OF THE DEEP MAFIA.

Finance and money determine politics, wars, peace.

Primary goal and approach: Establishment of central banks in the countries - the big countries that actually control not only finances but also economic activity and politics. Through these central banks, governments, countries, parties, citizens, an entire territory will be controlled, in terms of money, investments, resources, use, for whose benefit and for what.

These are the initial steps. Establishment of central banks in the countries - the big countries that actually control not only finances but also economic activity.

Establishment of central banks in the countries, owned by private individuals and private banks. In this way, control is exercised over the economies of these countries, the governments of these countries, over citizens, over entire societies.

Where the establishment of central private banks in the countries is not allowed - reasons are generated for causing civil wars, wars between countries, causing "revolutions", - their financing by the banking-financial resource-technological capital.

Creating conditions for destabilization of the respective country, importing corruption, causing civil war, causing war, creating conditions for the maturation of an economic crisis, which will lead to destabilization of the political power in the country.

Generating and causing wars, conflicts, imaginary conflicts, financing both warring parties with loans - with the ultimate goal of profit, indebtedness, and then giving credits for the reconstruction of these countries, giving loans to restore the economies of the warring countries, taking over companies managing resources - oil, gold, trade, medicines, food, creating a military situation - conclusion - institutional occasion.

System: Financing both parties waging war against each other. Practically, the countries go into debt to the banks, then the banks and financial institutions finance the reconstruction of the economies of these countries. The profits are huge. The rate of profit for weapons and ammunition is the highest and the fastest recoverable and turnover.

They finance the supply of weapons, ammunition, food, clothing, ammunition, and additional equipment, they actually manage the process of the war – when to have an advantage for one side, when for the other. -

In reality, with the supply of weapons, ammunition, they manage the process of the war – which side should take advantage and when and for how long.

The goal:

CONTROL OF THE WORLD, - IMPLEMENTATION OF A NEW WORLD ORDER controlled and managed by them.

4. Principles of FINANCIAL BANKING TECHNOLOGICAL MAFIA-BASED MATERIALISM

created and managed by the Global Masonic Mafia-based Elite and the DEEP MAFIA managed by it – a brief description, concept, content, and of the global Masonic elite

The global Masonic Mafia-based elite and the deep state managed by it is a corporate, militarized, functionally precisely defined, mafia-based group of people who manage and own financial, banking, corporate, IT companies, unelected by the citizens of the states, who actually manage not only a specific state, but also a group of states, on the principles of Mafia and financial banking resource-technological mafia-based Materialism.

The global Masonic mafia-styled elite and the deep state ruled by it have corrupted and mafia-styled all spheres of society on which the governance of a country, of a union depends – in the case of the European Commission and the European Union, the USA, and other countries where people of the deep state rule.

All representatives of the global Masonic mafia-styled elite and the deep state are Masons and belong to various secret societies, regardless of which. For years, all secret societies have been taken over from within by the representatives and bearers of the goals and aspirations of the Illuminati for a new world genocide and dictatorship over humanity. For these Masons, the oath is to fulfill the law of the lodge and not to comply with any other laws - such as those of states, international law, unions and others, and to do everything in the name and for the benefit of the lodge, observing only the laws of the lodge, but not the respective state, international laws, even committing crimes, helping members of the lodge when they are in trouble, and to carry out the plan of the lodge. All laws and rules are subject to an oath to the ideology and faith in Lucifer and the church of Lucifer / Satan.

State capitalism - is a system in which the state replaces private entrepreneurs in their role as factors - capitalists.

Under state capitalism, all property and all means of production are concentrated in the hands of one capitalist - the state, which in most cases is governed by a party elite and party nomenclature.

The added value of production is redistributed by the only capitalist - the state. It is often called either socialist or communist.

It is often claimed that the countries of the socialist bloc are neither people's nor social, and the economic system actually represents state capitalism.

Capitalism is an economic system in which production, trade are privately owned and are managed according to the methods of the market economy, which in turn follow the principles of supply and demand. The main driving force in such a system is supposedly "competition".

Fascism - professes the idea of a single-party state,. Fascism believes that nations and races are in constant conflict. Fascist governments prohibit and suppress criticism and opposition to themselves.

They are opponents of class conflict.

Fascism is a government similar to that of Mussolini, which elevates the nation and race above the individual, establishes a one-party system, promotes nationalism, imposes strict economic and social control, adopts violence, censorship.

The state is governed by the prime minister, if the same state is a parliamentary republic, who has put in place and manages every state institution - ministry, state agency, manages both the executive and judicial branches through appointments that are close to him, and also manages the legislative branch - parliament.

The people are a mob according to mafia. Principles of mob rule: suppressing the masses so that they are guided by petty passions.

Creating problems for the "crowd" - the people through taxes, high prices, high interest rates on banking services, management of the free funds of citizens from the middle class, in this way, through cunning and hypocrisy, the greatest human virtues are suppressed - frankness and honesty, which according to mafia are vices,

The rule of law, - where does the law begin, where does it end.

The power of the law, "liberalism" rights",

The right of the strong,

Intervenes and abolishes all existing regulations and decrees. Mafiotism lays its hands on the laws, reorganizes institutions, what is necessary and useful is only for their goals and aspirations.

4.2. FORMULA OF THE MAFIOTISM AND SYSTEMS OF MAFIAISM

AND FINANCIAL BANKING RESOURCE-TECHNOLOGICAL MAFIAISM MATERIALISM

The most simple model of the mafia which describes the factors which influence about the amount, type, etc., of the mafia is the following:

MAFIOTISMUS = PERSONAL/GROUP / hidden or open/ Power / on the top of the state institutions/state and etc./ + Influence + Connections / to personal, private companies + Interests / personal , private, corporative / + ORDER/ORDERS + Personal Management of all state levels + Personal Control of all state levels/Mafia structure/ inside of or outside/ + Monopoly Rights+ laws/ rules/ practices/procedures + possibility of taking an alternative decision – obligation – responsibilities – morality/ethics + Personal management and personal control of distribution of public state monetary and other resources/ including European funds and means/.

The mafia is also available for the public and private sector. The power of the mafia and the corruption practices in Greece in the public sector are very strong.

THE MAFIOTISM PRICE is the material or non-material benefits of members of the above-mentioned structures. Here is the connection BETWEEN THE MAFIA AND THE CORRUPTION

SPHERE SPREAD OF THE MAFIA all over the world.

The mafia in Greece can be found in all spheres of public life.

Sphere of appearances of the mafia:

1. In the state administration.,
2. In the politics.,
3. In the justice system,
4. In the police, prosecutor,
5. In the public services.,
6. In the private sector,
7. In the TV, radio, television, newspaper, and etc.,
8. In the citizen sector.

The meanness, instability, inconstancy of the “crowd” – the people, its inability to understand and feel the conditions of its own life.

The power of the crowd in the service of mafia is blind, unreasonable, unreasoning, serving the left and the right.

Mafia makes suggestions about freedom, equality, brotherhood, justice, pushing towards debauchery, drunkenness, cunning, hypocrisy, violence, robbery and terror.

Terror is carried out in all vertical and horizontal structures of the executive branch.

Terror is carried out in favor of mafia and its representatives from the prosecutor's office, judiciary.

Terror is carried out through the National Revenue Agency, Ministry of Internal Affairs, prosecutor's office, tax services, municipal services and others.

Mafia control the most important factor of public thought – the press and print media, all types of media – especially television, the Internet.

The thought of the crowd moves through the press and the media. The role of the press and the media is to: perceive the needs, convey complaints and reveal the dissatisfaction of the people. The press declares free speech. But this is apparent. News events are managed and controlled by representatives of the mafia.

Tyranny and political decay - the abuse of power, the suppression of aspirations for independence

The impoverished people are in hopeless slavery, they have only fictitious rights.

Poverty of life oppresses the masses. In the constitution there are rights that are actually fictitious, not real. Which are violated in every way in all laws adopted by parliament.

Rights are really abstract ideas that never in practice

Hunger and the degeneration of the masses.

With the continuous needs, the continuous expenses, the continuous increase in expenses, the taxes, the continuous indebtedness - hunger, taxes, obligations - give birth to a slavish dependence that rules the crowds, and their hands and minds are blocked for a different other thought,

Liberalism

When the people realize that in the name of freedom they are being made concessions and indulgences, they imagine that they are powerful and attack the government. The people are like a blind man who comes across all kinds of obstacles, problems, helpless looking for a patron - support, which is not found, not thinking of returning to their first position - they obediently put their rights in the hands of

Speculation is the main form of business and business relations.

Capital is the one that moves the world, moves slavery, which controls industry and trade

The weakened public thought. – those who think and oppose, must be unlearned to think, mental forces must be directed into a verbal skirmish of legal time and eloquence.

Societies must be deceived and lied to and manipulated

Chaos in public thought. Civil society is being replaced and displaced by NGOs financed by the mafia and a replacement of civil society is practically being realized and implemented

To lose in the pro-vocabulary any opinion on political problems, and political issues these issues are not within the competence of society, but only of the one who leads the game.

Another strategy - to insult the people's shortcomings, habits, passions, rules of relationships so much that chaos is created from which there is no way out.

People cease to understand each other and they do not need to refuse the people to think about political issues and solve them.

Personal initiatives must also be confronted - one against the other in order to make them meaningless.

Monopolies destroy wealth.

Capital humiliates agriculture.

Increase in wages and simultaneous increase in prices. Increasing wages is not in favor of workers, because at the same time prices

will be increased, the price of basic necessities will increase several times compared to the increase in wages.

Representatives of the mafia hold public forces. They are legislators, they determine the composition of the court and they dispense justice, they punish, they pardon, they judge

They hold all these positions in their hands

Mafia holds in their hands the unbridled ambitious, insatiable, greedy, merciless to revenge, the malicious, hateful, envious.

Mafiaism is destroying state institutions, education, upbringing, municipal structures and all types of administrations, creating a lawless arbitrariness, affecting the legal order, with a liberal lawless arbitrariness.

They deliberately complicated and confused the legislation.

Judges do not enforce the law, no one can punish them, no one wants to punish the judges, there is no such institution that would punish them, sanction them, fire them.

Mafiaism and its representatives at the state level create, maintain, and support the PROCESS OF GOD'S CHOSEN IN COURT AND PROSECUTOR'S OFFICE. Judicial acts are issued that distort interpretations, contradict the law and its proper implementation, create precedent law in a judicial system that does not allow such law, create precedent law that grossly violates the laws and rights of individuals and companies, issue contradictory interpretations.

The mafia and its representatives affect the judiciary, electoral institutions, the press, the media, personal freedom, education and upbringing as cornerstones of free life.

The institutions are fragmented and divided among themselves the power of the state - legislative, executive and judicial. If one part is damaged, the entire state is damaged and in its actions. The state is sick from the lack of justice, the lack of implementation of the law by judges, the lack of implementation of the law by prosecutors.

In reality, the blood of the state is poisoned - when the judiciary is poisoned. Then this state is best governed by the mafia.

The mafia places and appoints the judges and prosecutors, The three pillars of chaos are completely dependent on the mafia.

Control of the mafia and control of corruption in the judicial system, - court and prosecutor's office, administration, ministries. People are appointed who have something dark in their past, a mistake in their life, violations of the law, there is some affair, there is a crime. Such people are loyal and do all the things they are ordered to do, they carry out orders, orders, for fear of being exposed. They strive to maintain their privileges, power, benefits, honor, authority, strength, rights to do what they want without being punished.

Destruction in the constitutions of everything that hinders the mafia and the introduction into them of that which seizes the very content of the constitutions and the rights of citizens.

Institutions are created to combat corruption, which persons are appointed by representatives of the mafia, but in reality not to implement the laws, but to cover up the crimes of their members and servants,

Exhaustion of the population and citizens in their own everyday problems of survival.

Disenfranchisement of the population. Real deprivation of the rights and freedoms of citizens demonstrated in the constitutions and their replacement in other by-laws in lawlessness.

Real destruction of the freedoms of citizens in other laws and the real depersonalization of the rights and freedoms of citizens in the constitution.

This leads to the seizure of all rights, it is done so that the laws will prohibit and allow only that which is in the interest of the mafia and their personal interest.

The entire press and all media will be tightly controlled by mafia people.

No one with a different opinion will be allowed to approach the media, television, radio, newspapers, magazines, .

SYSTEM OF CONTROL OF PUBLIC RESOURCES

Literature and journalism are the two most important educational forces. The mafia will become the owner of almost 100 percent of the media - television, radio, newspapers, magazines, which control about 90 - 95 percent of the population.

SYSTEM OF KOMPROMATA .

In this way and with these methods, judges and prosecutors, statesmen, officials, ministers, .

Through compromising evidence and

SYSTEM OF VIOLATIONS OF THE LAW

Through audit reports of revenue and other state agencies, tax offices, which prove violations, debts of individuals and companies in particularly large amounts, companies and individuals will be kept in submission, and these documents will not be presented, but they will be kept in limbo, ready at any moment to be activated and used against the relevant person or company.

REAL CREATION OF AN ILLUSTRATED OPPOSITION

Which will carry out apparent attacks and protests In reality, the skirmishes at the political and any level will be futile and imaginary.

COVERING AND LEGALIZATION OF CRIMES by the MAFIA IN THE PROSECUTOR'S OFFICE

In order for the mafia to work in the prosecutor's office, the top of this organization should be a person who serves the mafia.

Inclusion of the right of cassation in the power of the ruler and the mafia

The press will fall under strict censorship of the mafia only in its favor.

Real use of all instruments of the media and the press in the favor and interests of the mafia.

Criminal cases against people belonging to the mafia will be decided in their favor in violation of any legal provisions.

Criminal cases against people - opponents of the mafia of the government, will be decided in violation of the laws to their detriment and their ruin - both intellectually, physically, mentally.

6. HISTORICAL AND OTHER EVIDENCE OF CAUSED CRISES, WARS, of MAFIAISM and Financial Banking Resource-Technological Mafia-Influenced MATERIALISM

Historical review and evidence of the above:

On August 15, 1871, Pike laid out before the leader of the Illuminati Mazzini his plan to conquer the world through three world wars. World War I - staging to destroy Tsarist Russia due to the possession of huge resources and to fall under the direct control of the bankers who are interested in the resources - especially oil and metals. World War II - the growth of Russian influence and the creation of the state of Israel in Palestine. For the next war. The

main reason for the First Holy War - deliberate indebtedness of the economy. World War I and the Treaty of Versailles – lead to the Second World War, - Germany's over-indebtedness to the winners of World War I. Through war, a country is always divided into two sides. But the same side finances both sides and actually manages the policy of the entire country, owns industry, raw materials, etc.

American Civil War 1861 -1865.

In the American Civil War 1861 - 1865. The Northern states, which are against slavery, fought against the Southern states, advocates of slavery. The Rothschild Bank in London financed the Northern states, and the Rothschild Bank in Paris financed the Southern states. Through war, a country is always divided into two sides. But the same side finances both sides and actually manages the policy of the entire country, owns industry, raw materials, etc.

War and oil

The beginning of the oil empires is associated with John D. Rockefeller. In 1870. He created Standard Oil. In 1882, he became the first trust. / unification of many companies under one management/.

Shareholders of forty American companies signed an agreement and entrusted their shares to a supervisory board of nine men. In 1890, the government issued the first antitrust law. Rockefeller moved the main part of the company abroad.

At the end of the 19th century, a remarkable oil industry developed in Russia. The oil fields in Baku were in the hands of the Swedish brothers Robert and Ludwig Nobel. Russian oil production amounted to 600,000 barrels in 1874, and ten years later it reached 10.8 million barrels - about a third of American production. Oil entrepreneurs Bunge and Palashovsky built, with the financial assistance of Rothschild, a railway line from Baku to Batumi on the Black Sea - the most important oil port. In 1886. The Rothschilds founded the Caspian and Black Sea Oil Company. The distribution is between the four companies - Standard Oil, Royal Dutch Shell, Detergent, the Nobel brothers' company and the Rothschilds'.

The wars in Afghanistan and Iraq are oil.

The creation of the Federal Reserve in 1913

The creation of the Federal Reserve - a private institution that would print US dollars and control real finances throughout the world.

In the USA, the Federal Reserve was founded in 1913. The largest owners of FED shares are:

1. Rothschild banks from London and Paris.
2. Lazard Brother Bank from Paris
3. Israel Moses Seif Bank from Italy
4. Warburg Bank from Amsterdam and Hamburg
5. Lehmann Bank from New York
6. Khun Loeb Bank from New York
7. Chase Manhattan Bank from New York
8. Goldman Sachs Bank from New York

The value of banknotes printed by the Federal Reserve is 50 - 70 cents. The money in circulation issued by the Federal Reserve banknotes is 263 billion as of 2002. The liabilities of the USA alone are over 4 trillion US dollars as of 2002. The Fed is a private institution.

With the Federal Reserve, the United States is thrown into utopian state debt obligations to bankers. The payment of interest is guaranteed by tax revenues. Where they cannot be paid, the ownership of state banks is transferred to English and/or French banks.

Oil and the First World War

Before the outbreak of the First World War, there was an agreement between Russia, France and Great Britain on how raw materials would be distributed after the end of the war. – “Syke – Picot”

A decisive role in the course of the First World War was played by transport and supplies – the supply of weapons, ammunition and other things to the warring parties.

The October Revolution in Russia

The instigator of the Russian Revolution - Jacob Schiff. Born in 1847. In Frankfurt am Main and grew up next door to the Rothschild family. 1865. He left for New York where in 1875. He started working at the bank "Kun Loeb & Co." in 1885 - became its director - this was on Rothschild's orders. Kuhn and Schiff were members of the lodge.

The American financial circles have been sworn enemies of the tsarist regime in Russia for years, 1904 Schiff wrote to Rothschild that over the past 5-6 years he had thwarted loans to Russia.

Instead, Schiff arranged for Japan in 1905 three loans to Japan, he aimed at the victory of Japan and social tension in Russia. Rothschild Kuhn Loeb & Co. actually financed Japan as well. In 1914, the conflict with Germany broke out.

Already with the conflict with Germany, the Russian army was weakened.

Lloyd George found that the situation on the Russian front was desperate in connection with the delay in military supplies by five months. There was only one rifle for 6 soldiers.

Tactics of the Jewish lobby to bring Russia to famine and misery by sowing the seeds of unrest, protests, resentment and creating conditions - favorable conditions for the instigators of the revolution. (The soldiers begin to rebel.

Responsible for the supplies is the company "Vickers Maxim" controlled by Sir Ernest Castle, a partner in the transaction of Kuhn Loeb and Co. - a member of the Rothschild family.

Meanwhile, the Jew Alexander Kerensky incites discord in Russia.

Money was transferred in 1917 from the Federal Reserve Bank in New York to the "Rockefeller National Bank" - the only bank in St. Petersburg that was not nationalized / intended for the October Revolution, conceived as early as 1903.

1918 Jews gather in New York for the final outcome of the revolution in Russia - Jacob Schiff, L. Marshall, O.A.V Rosalsky, O.A. Kahn – founder of the Schiff Bank and owner of the New York Times, B. Schlesinger – who met Lenin, Joseph Schlossberg – secretary of the Workers' Union/ M. Paine, David Rinsky and others Barondes,

1920 in the American Jewish magazine of September 10, 2910 the Jewish lobby stated:

“The Bolshevik revolution is a kind of echo of Jewish discontent”.

Leon Trotsky was living in New York when the emperor was overthrown in 1917. Trotsky left on March 26, 2917 for St. Petersburg on the steamer Christiania with 10,000 US dollars in his pocket, given to him by Rockefeller. Trotsky entered with an American passport that he personally received from US President Woodrow Wilson – a puppet in his hands. On March 19, 1917. Jacob Schiff sends a telegram to the Minister of Foreign Affairs of the Provisional Russian Government Milyukov:

The nephew of Jacob Schiff in the New York Journal American of February 3, 1949. confirms that his relative is Chezhdu 1918 and 1922. his grandfather transferred to the Russian revolutionaries 30 million US dollars, which Lenin later returned paid in the amount of 600 million rubles in gold / equivalent to 450 million dollars / in gold. To Bana Kuhn Loeb and Co.

The banks "Morgan Rothschild, " Lazarus", Barburg" by Sir George Buchanan and Lord Milner,

The American Secret Service of March 6, 1920. in February 1916 - for the first time it is understood that in Russia the incitement of the revolution - a list of names of bankers: Schiff, Kuhn, Loeb and Co., Jerome Handwell, Guggenheim, Max Breithurng -

The emperor actually refuses the Jews to form a central bank in Russia.

The way of preparing the October Revolution is like that of the French Revolution -The first condition is to create conditions for the maturation of an economic crisis that will lead to the destabilization of political power in the country.

The financing of the October Revolution was financed by American banks in 1903. Theodore Roosevelt met with representatives of the "Children of the Covenant", the oldest public Jewish organization.

Napoleon Levy was also present there - the author of the protest diplomatic message that the USA sent to Russia condemning the pogrom on April 19, 2003. in Chisinau.

This message was sent with a signed signature from 30,000 members of the "Children of the Covenant"

1905. the banker of Jewish origin Jacob Schiff - a member of "If the emperor refuses to give our people the desired freedom, then with a revolution we will establish a republic and we will win our rights". Since 1905. The bank Kn, Loeb & Co. began to economically support the Russian Revolution, financing Lenin, Trotsky and Zinoviev.

Two members of the English Pilgrim and the "Round Table" Freemasons Viscount Alfred Milner and Sir George Buchanan - the English ambassador in Moscow - were responsible for distributing the money. The money was provided, in addition to Lazar and his son-in-law Felix Warburg - founder of the Federal Reserve in 1913. And by Hermann Kahn, Mortimer Schiff, Max Breiting, Jerome H. Hanauer, Solomon Guggenheim - all from the "Children of the Covenant".

William Boyce Thompson - director of the Federal Reserve and shareholder in Chase Manhattan Bank - financed the propaganda activities of the October Revolution with one million US dollars

Financing - propaganda - in the media, television, agencies, travel, training, equipment, weapons, printed publications

The October Revolution received the financial support of the German General Staff.

Bank transfers passed through Germany through the trade union "Rhino Westphalia" run by the coal magnate - Kirdorf - the bank "Warburg & Co" in Hamburg and "Speyer" - in Frankfurt, reaching Sweden in Nya Banken and passing through the Jewish "Olaf Ashbers". The Jewish bank "Günzburg" with headquarters in Petersburg also participated. Letter of credit of 40 million gold francs. Soon after, Rockefeller's Standard Oil in New Jersey purchased 50 percent of the huge oil deposits in the Caucasus, although they were officially state property. The way to prepare for the October Revolution was like that of the French Revolution. The first condition - creating conditions for a maturing economic crisis, which would lead to the destabilization of political power in the country. The emperor actually refused the Jews to form a central bank in Russia. 1804 Napoleon understood the power of those who threaten France - he stopped tolerating Rothschild, for which he paid with his death. Rothschild from that moment on began to finance every coalition against Napoleon.

It was not Wellington who defeated Napoleon, but Rothschild.

As well as other factories to be spared – AEG the German subsidiary of General Electric/.
6. The attack on the Japanese Pearl Harbor, with which Roosevelt declared war on and entered the Second World War, was deliberately provoked by the McCollum Plan. The US imposed severe economic sanctions against Japan. American intelligence was clear about the plan for the attack.
7. On October 19, 1936, the US Ambassador to Germany William Dodd reported to Franklin Delano Roosevelt that Dupont had opened companies in Germany, In December 1933, Standard Oil Company transferred \$2 million to produce a substitute for German fuel.
8. **THE BANK FOR INTERNATIONAL SETTLEMENTS BRI** provided Hitler with financing, it was established in 1930. In Basel as a bank of banks

7. NEW EVIDENCE IN A NEW TIME

1964. American military reports that they were attacked by North Vietnamese warships and the United States entered the war with Vietnam. This was a set-up by INTELLIGENCE - like the Gulf of Tonkin Incident. The goal is war and the warring parties to go into even more debt.

1972. At the initiative of State Secretary Henry Kissinger, a Rockefeller confidant, the US government allocates over \$1 billion for licenses for the export of equipment and technical assistance for the construction of factories for heavy civilian and military equipment in the Kama River region.

Here are Chase Manhattan Bank, Gulf & Western Industries, E.W.Bliss Co., Combustion Engineering, Hocrift and company, Honewell, Ingolsoll Milling Machine Company, National Engineering, Pullman, Swindell Dressler Co., Warner&Swazey.
